

Requirements for case submission to the 2010 ASVCP Clinical Chemistry Review Session

Cases that are based predominantly or solely on clinical chemistry are appropriate for submission for the Clinical Chemistry Review Session

Type of Materials Requested

Submissions are requested for the fourth ASVCP Clinical Chemistry Review Session. Submitted materials should focus on the interpretation of chemistry data, including but not limited to the routine serum chemistry panel. Ancillary clinical pathology and other data as needed for the presentation of the case is appropriate. Cases may represent any species and an interactive presentation style is encouraged. The cases should be challenging and solvable based on information provided. Results of toxicology studies, cases involving the interpretation of quality control materials or validation studies as well as individual clinical case presentations will be considered for this session. The ASVCP Clinical Chemistry Review Session is held at a separate time from the ASVCP Cytology and Hematology Case Review Session that involves cytology and hematology slides or images (see the March newsletter and a separate email announcement regarding that session).

Case Submission

Cases **MUST** be submitted using the online forms posted at the ASVCP website (<http://www.asvcp.org>). Reference intervals for the laboratory data should be provided. Two files will be submitted. The first file is the Clinical Chemistry History to be distributed with data prior to the meeting and should include contributors, signalment, concise history and clinical findings. The submitter is also encouraged to provide questions to be answered at the case review session. It is hoped that these questions will inspire participants to review and investigate the data before the meeting. The second file is the Clinical Chemistry Summary to be distributed at the meeting and should include the information on the first file, plus diagnosis, discussion (including answers to the questions that were provided) and references.

When and Where to Submit

The **DEADLINE** for receipt of ALL case materials is Tuesday, June 15, 2010. You **MUST** use the online submission forms posted on the ASVCP website. **PLEASE NOTE THAT THE SUBMISSION DATE IS EARLIER THAN USUAL THIS YEAR, DUE TO AN EARLIER CONFERENCE DATE.** Submitters will be notified of the results of the selection process by August 1, 2010. It is anticipated that 2-4 cases will be selected for presentation, depending on the complexity of the cases. Be sure to include your E-mail address with your submission.

Inquires should be directed to:
